

MAXIMIZING POSITIVE IMPACT
FOR OUR CUSTOMERS, OUR
EMPLOYEES, AND THE
COMMUNITY.

THERE'S SO MUCH
TO BE DONE.

Who We Are

Humango Solutions (Humango) delivers services and solutions that maximize our customers' positive impact on society. We are dedicated to supporting, maximizing and evolving digital solutions and information technology that enable government services to be more secure, effective, accessible, and available to the public.

Certified B Corporation

Humango is mission driven. We meet the standards of a B Corporation and balance profit with purpose. We use the power of business to build a more inclusive and sustainable economy and are committed to social and environmental responsibility, modern and equitable workplace practices, and building an employee-centric culture of like-minded individuals looking to make an impact and produce positive outcomes for our clients and communities.

Capabilities

Enterprise Advancement

Enabling complex missions across National security, citizen, scientific, governance, and healthcare services

Cybersecurity

Protecting information, data, networks, endpoints, and critical mission systems across the enterprise

IT Transformation

Driving innovative digital solutions and modernizing technology environments to maximize mission value

Data Exploitation

Transforming data into actionable insights and business intelligence to simplify complex decisions
